

Introdução à Geometria- 07-08

Livro principal

[R-S] *Geometry and Topology*, M. Reid, B. Szendroi, (capítulos 1 a 6) , Cambridge University Press, 2005.

Outros livros interessantes

[A] *Géométrie* , M. Audin, Berlin, 1998.

[J] *Modern Geometry with Applications*, G. Jennings, Springer-Verlag, 1994.

[L] *Space through the Ages - The Evolution of Geometrical Ideas from Pythagoras to Hilbert and Einstein* , C. Lanczos, Academic Press, 1970.

[M] *Transformation geometry- An introduction to symmetry*, G. Martin, UTM, Springer-Verlag

[N-S] *Geometries and groups*, Nikulin e Shafarevich, Springer-Verlag

[Re] *Notes on geometry*, E.Rees, Springer-Verlag.

[Ro] *Elementary geometry*, J.Roe, Oxford Science Publications, 1993

[Se] *Linear algebra - a geometric approach*, E. Sernesi, Chapman Hall.

[St] *Geometry of surfaces*, J. Stillwell, Springer-Verlag.
